Summary

The Steinway Model A3, or "Long A", is widely regarded as one of Steinway's best scale designs and nearly rivals the powerful bass of the larger Steinway "B", but in a more compact size.

Fully restored by David Andersen Pianos eight years ago, this piano's owner is downsizing to an upright; his decision is your gain. The action has all-new Renner parts, balanced with precision Stanwood protocols.

Piano has been meticulously maintained for the last decade.
