Summary

Every once in a while something happens to you that seems like a coincidence...but something inside you says "this is more than just random..."

So it is with this Bösendorfer 200. When it was new, in 2003, I set it up, with precise regulation, tuning, and voicing, in the owner's home. He had gone to Vienna, to the factory showroom, and selected this piano out of a lineup of four...then ordered it with custom all-chrome fittings.

About eight years ago, I lost touch with this unique instrument; then, last month, it found me, and now I can offer it to you. A piano that's 16 years young, and in truly original showroom condition, is exceedingly rare...but here it is.

This is one of the finest Bösendorfers I've ever come across: huge bass,

shimmering, singing, sustaining treble, and a rich sonorous tone throughout. New retail on this piano is **\$136,000**, and at nearly 50% less than that, is a tremendous price-to-value ratio.

- True showroom condition
- Full 10-year limited warranty
- Custom chrome hardware
- California piano since new
- Tuned and maintained regularly
- Includes free artist bench
