Summary

This piano was purchased new in 2014 from the Steinway Factory, and has less than 100 hours playing time, which means it's essentially a new piano.

It has all the best features in a Steinway B: deep, powerful bass, rich, fundamental tone throughout, a sparkling, singing treble, and a very responsive action.

This is an unprecedented opportunity to own a nearly new Steinway B at nearly 50% below new factory prices.
